

New
Published September 2009

This book is written by psychiatrists with extensive experience of working closely with teachers at both primary and secondary level in Ireland and provides a comprehensive up-to-date introduction to Mental Health in Children & Adolescents. The clear writing style and incisive explanations will appeal to teachers who need an authoritative and accessible guide that focuses on the essentials of the subject.

The authors' broad experience enables them to provide an insightful and wide-ranging account of this critically important and fascinating subject.
